

Steering clutch hydraulic control shop made tool 8B2893

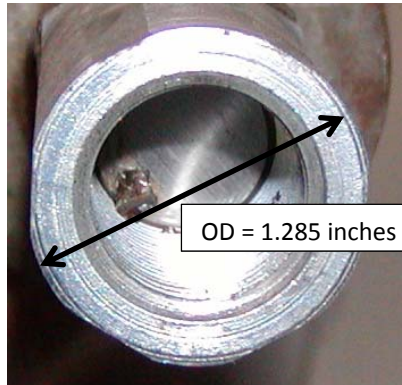

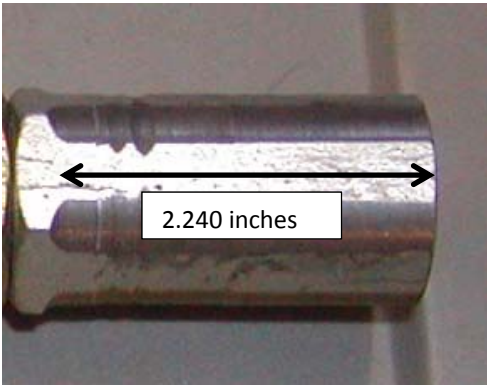

Removes oil seal retainers

McMaster-Carr No.	Description
98957A410	Grade B7 Medium-Strength Steel Threaded Rod, 7/8"-14 Thread Size, 1 Foot Long
90977A225	Medium-Strength Steel Coupling Nut, Grade 5, 7/8"-14 Thread Size

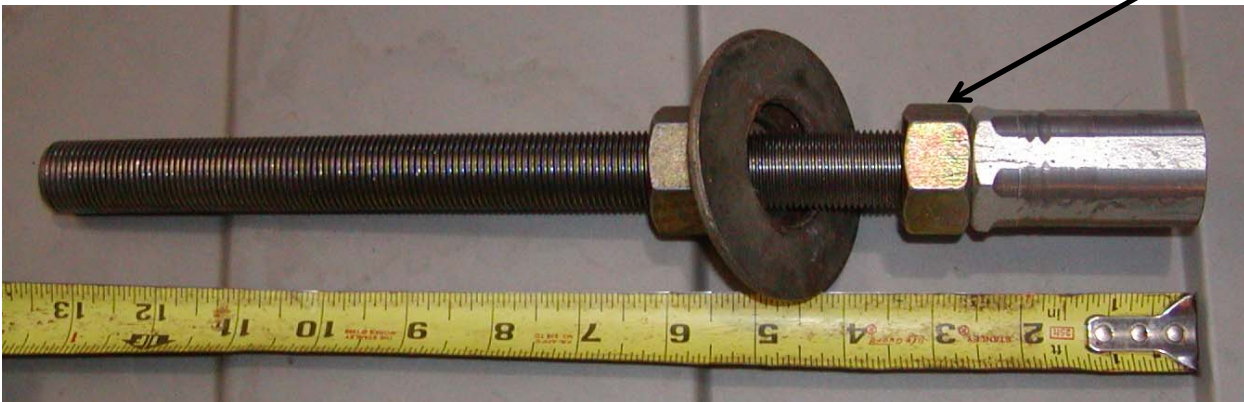

On a lathe, turn down exterior of coupling to an OD of 1.285"
Total length of OD shall not exceed 2.240" as there needs to be room to use a wrench on the end for installing the threaded rod.

Finished puller is 13.5 inches in length. Washers are grade 8.

Jam nut is used to keep coupling from turning.
