

PARTS CATALOG
FOR
MODEL "AD" GRADERS

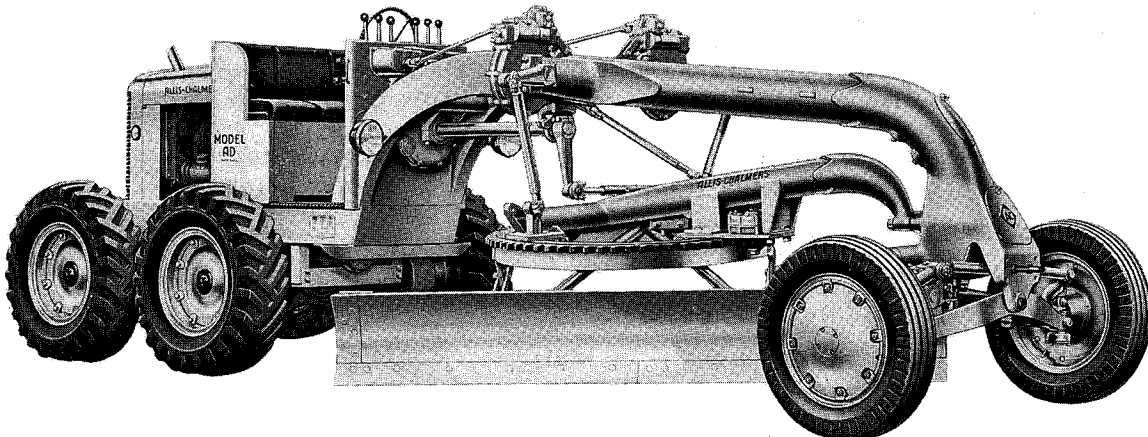

This catalog contains complete parts information for the Model AD3 Grader (3-cylinder engine) and the Model AD4 Grader (4-cylinder engine). The prefix "AD3" or "AD4" preceding the serial number of the machine provides positive identification of the Model. This prefix is important since the majority of the parts are common to both units and the same series of Unit Serial Numbers is used to facilitate design changes.

NOTE: A few of the early Model AD Graders have the prefix "IF" preceding the serial number. These are all Model AD3 Graders and should be identified as such when ordering repair parts.

The Grader Serial Number will be found stamped on a plate attached to the right side of the frame near the operator's platform.

The Engine Serial Number is stamped on the right hand side of the cylinder block near the top front corner.

Effective approximately August 1948, the engine serial numbering system was changed as a measure toward simplification. Under the old system the prefixes 371 and 471 (followed by the serial number) denoted the 3 and 4 cylinder engines respectively (Example: 371-78610). The new system uses the prefixes 3A and 4A respectively to serve the same purpose. However, with the new prefixes, the serial numbers start over again (Example: 3A-097).

IMPORTANT

ALWAYS GIVE THE GRADER AND ENGINE SERIAL NUMBERS WHEN ORDERING PARTS.

To obtain parts promptly, give part name and part number.

Order parts from the dealer covering the local territory.

Repairs for standard motor accessories such as generators and starting motors should be ordered from authorized Service Stations maintained by manufacturers of these units throughout the country.

Always state post office address, town, county and state where parts are to be shipped. Also specify whether material is to be shipped by freight, express or parcel post.

Confirm all telephone or telegraph orders in writing.

No credit will be allowed on parts unless they are returned to the dealer from whom they were purchased; from there they will be returned, at the customer's expense, to the factory for inspection.

Unless claims for shortages or errors are made immediately upon receipt of goods, they will not be considered.

When broken goods are received, a full description of the damage should be made by the carrier agent on the freight bill. If this description is insisted upon, full damage can always be collected from the transportation company.

No responsibility is assumed for delay or damage to merchandise while in transit. Our responsibility ceases upon delivery of shipment to the transportation company from whom a receipt is received showing that shipment was in good condition when delivered to them; therefore, claims (if any) should be filed with the transportation company and not with Allis-Chalmers Manufacturing Company.

The right is reserved to change the construction or material of any parts where it seems desirable to do so, without incurring the obligation of installing such changes on graders already delivered.

TELEGRAPHIC CODE

In sending wire orders, it is important that a one-word description of the part wanted be specified after each part number. In event the message is received with incorrect part number, it will help us to ascertain the part actually required. Confirm each telegraphic order by mail in order that it may be checked and if not correctly transmitted, the error detected.

Shipping or other instructions in the body of a telegram which normally consists of many words, can be condensed into one by the use of the proper code word as given below:

AIRYX -- Ship by Air Express
SONST -- Ship to me (us) by Express
SOOTY -- Ship by Express to
SOYON -- Ship to me (us) by Mail
SOBOS -- Ship by Mail to
SORAT -- Ship to me (us) by Freight
SAPAT -- Ship by Freight to
SPLAT -- When and how did you ship parts on my (our) order
SPATS -- When and how will you ship parts on my (our) order
STAUB -- Cancel my (our) parts order
STUFE -- Add to my (our) parts order
SOMOR -- Duplicate shipment of my (our) order

FOREWORD

The parts listed in this catalog have been divided into sections such as ENGINE SECTION, OILING SYSTEM, etc. Sections have been divided into groups. For example, the ENGINE SECTION consists of closely related groups such as CYLINDER BLOCK, CYLINDER HEAD, CRANKSHAFT, etc. The OILING SYSTEM consists of OIL PUMP, OIL FILTER, etc.

The extreme right hand column in the parts list entitled "KIT NO." indicates if an individual part is also available as a part of a KIT or SET. All numbers shown in this column are listed numerically in the last section of this catalog with the quantity and description of the various parts that make up the KIT or SET.

The terms "right" and "left" used throughout this catalog are determined by facing the direction of forward travel.

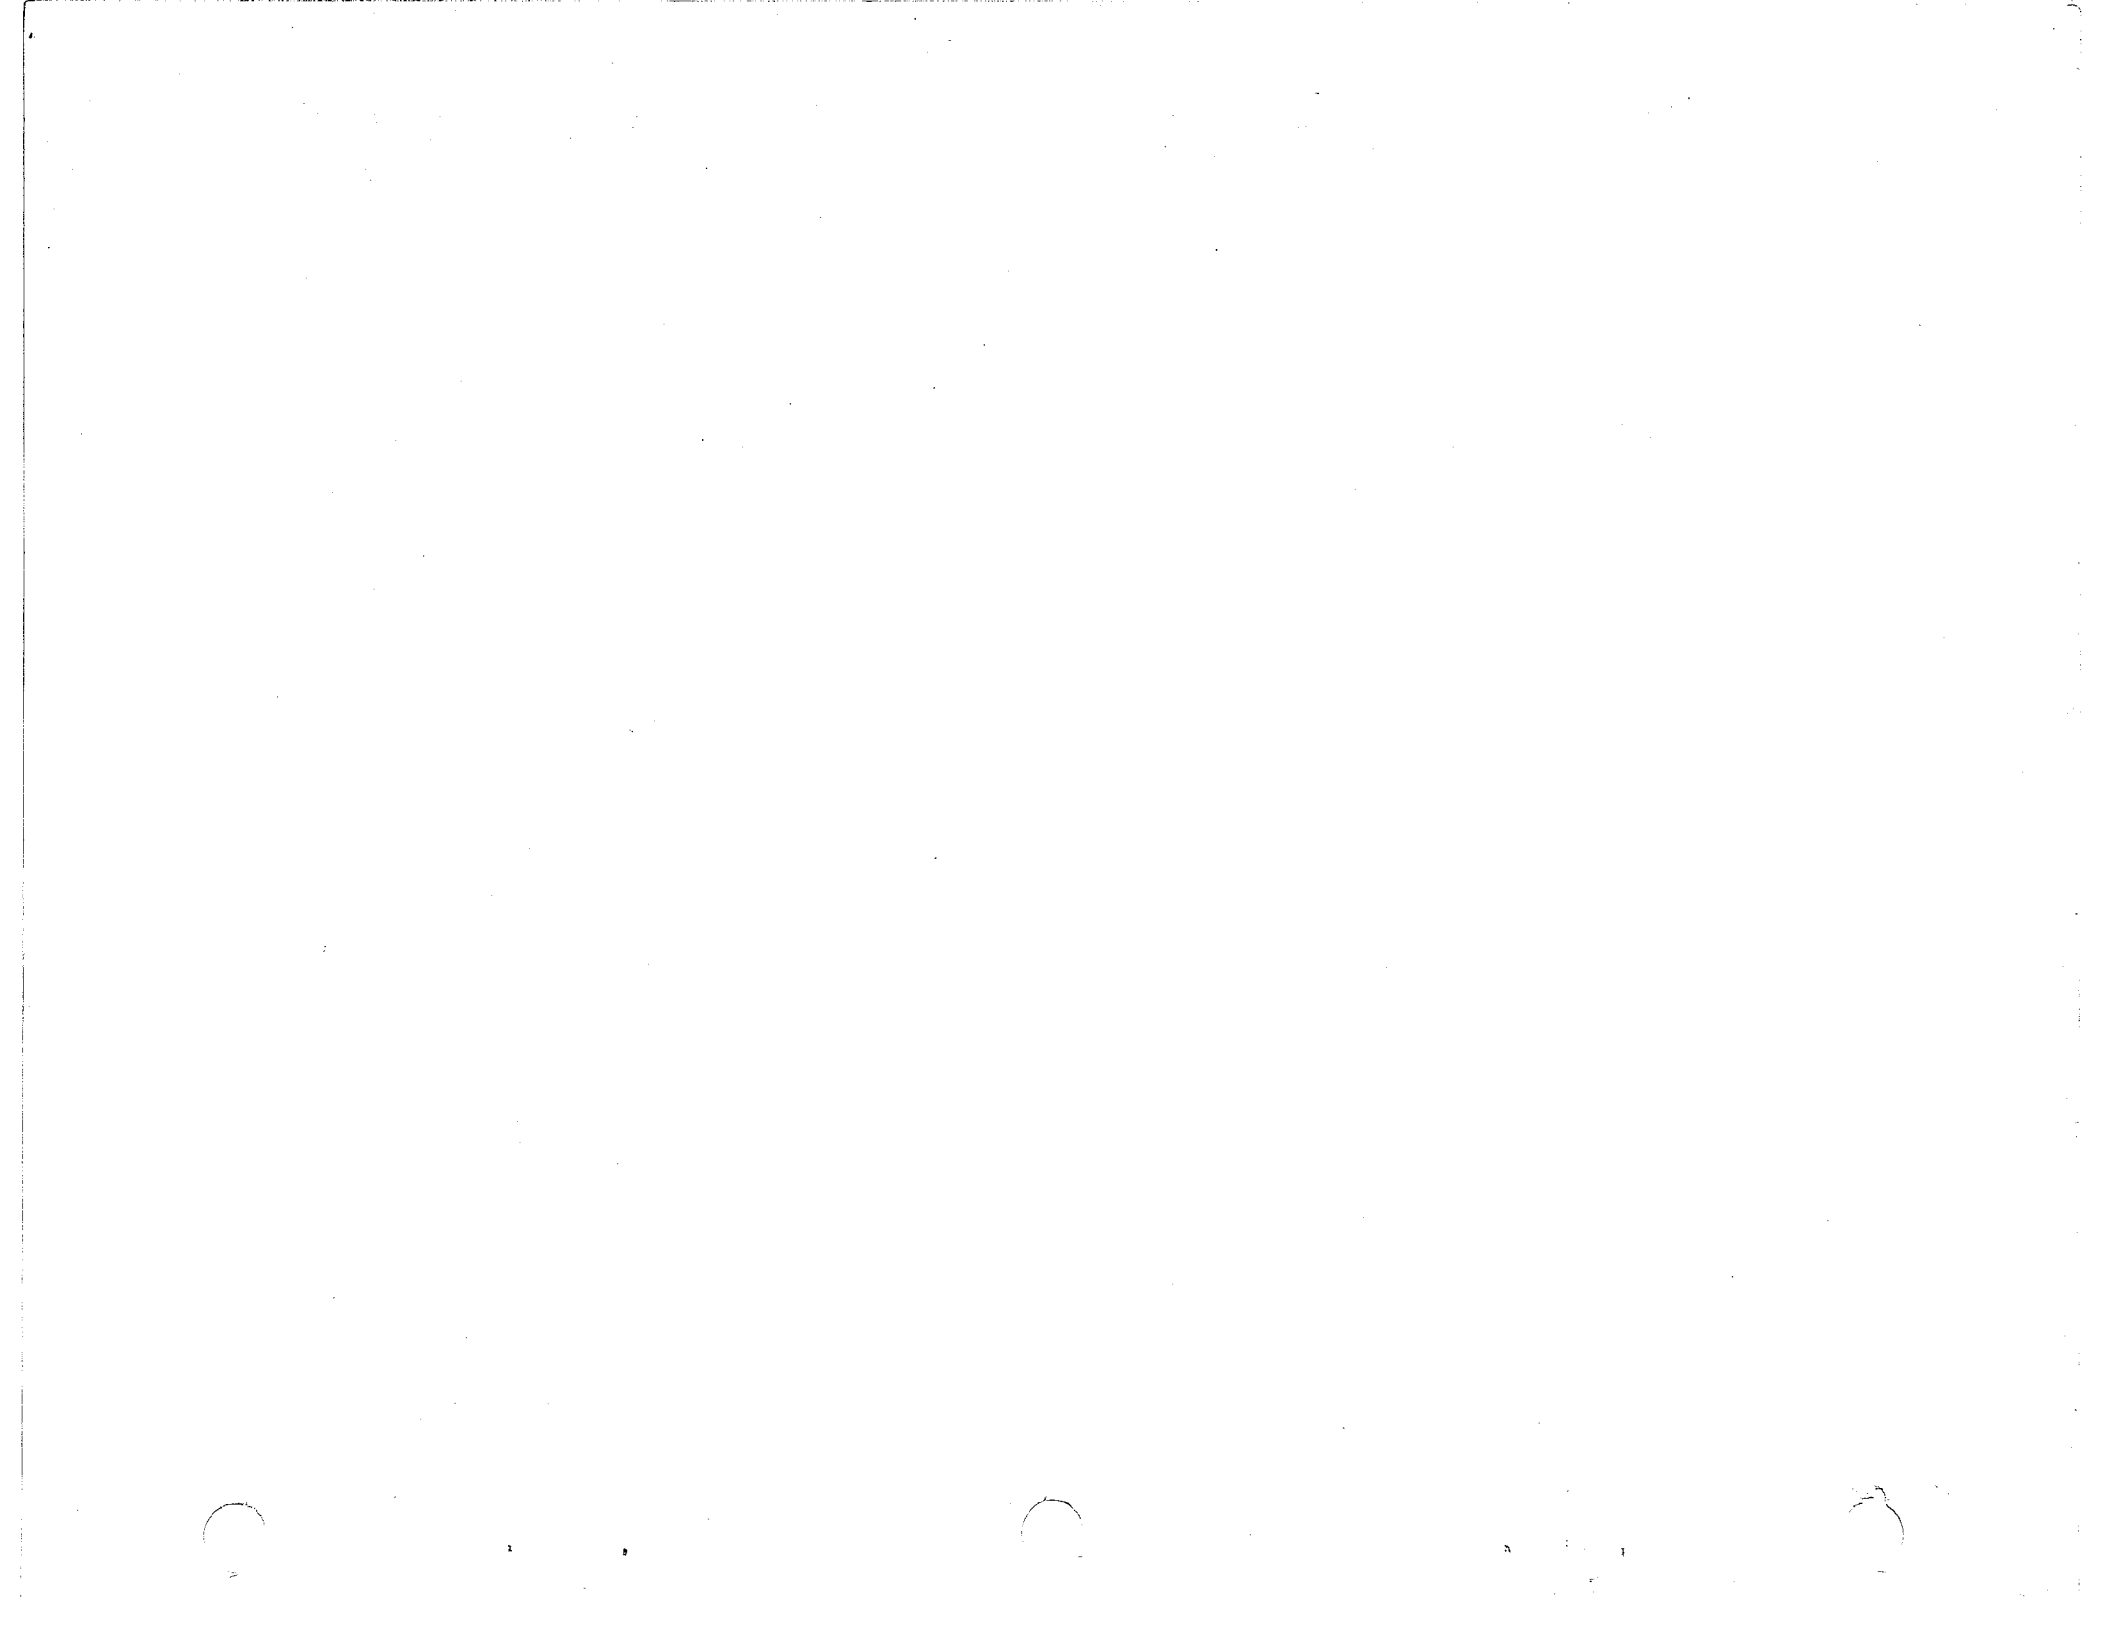

Attaching parts, such as bolts, nuts, rivets, screws, washers, etc., are indented immediately following the parts which they attach.

Any changes or corrections to this catalog will appear on the regular supplement form.

BRAKE BAND EXCHANGE OFFER: Brake band linings are not serviced separately due to necessity of precision grinding after being riveted in place. Used BAND AND LINING ASSEMBLIES may be returned to the factory for credit to apply against the purchase of new BAND AND LINING ASSEMBLIES. The used part is identified as part No. 055143 and the amount of allowable credit is indicated in the Repair Parts Price List under this number.

RECONDITIONING SERVICE: Magnets and Armatures will be reconditioned by the manufacturer at a very reasonable charge.

Back Plates (item 1), which have the cam pins damaged, will be reconditioned at a nominal charge by the manufacturer.

Send old parts to: Warner Electric Brake Mfg. Co.,
Beloit, Wisconsin

5192875	SHELL KIT, crankshaft main bearing (.002" undersize) 1 5192879 SHELL - lower 1 5192880 SHELL - upper
5192876	SHELL KIT, crankshaft main bearing (.010" undersize) 1 5192884 SHELL - upper 1 5192883 SHELL - lower
5192877	SHELL KIT, crankshaft main bearing (.020" undersize) 1 5192887 SHELL - lower 1 5192888 SHELL - upper
5192878	SHELL KIT, crankshaft main bearing (.030" undersize) 1 5192891 SHELL - lower 1 5192892 SHELL - upper
5192895	SHELL KIT, connecting rod (standard size) 1 5179632 SHELL - upper 1 5179633 SHELL - lower
5192896	SHELL KIT, connecting rod (.002" undersize) 1 5192881 SHELL - upper 1 5192882 SHELL - lower
5192897	SHELL KIT, connecting rod (.010" undersize) 1 5192885 SHELL - upper 1 5192886 SHELL - lower
5192898	SHELL KIT, connecting rod (.020" undersize) 1 5192889 SHELL - upper 1 5192890 SHELL - lower
5192899	SHELL KIT, connecting rod (.030" undersize) 1 5192893 SHELL - upper 1 5192894 SHELL - lower
5193239	SEAL KIT, water pump 1 040428 SEAL, impeller 1 040430 SPRING, impeller seal 1 040431 GUIDE, impeller seal spring 1 914836 PIN, groove, 3/16" x 7/8" 1 2007105 RING, impeller seal clamping 1 5150188 GASKET, body cover 1 5150191 PACKING, pump outlet 1 5150193 GASKET, pump to blower 1 5153443 WASHER, sealing 1 5153474 CUP, impeller seal retaining
5227324	TIP KIT, injector 1 5227210 SPRING, valve 1 5227318 STOP, valve 1 5227321 TIP, spray 1 5227323 VALVE ASSEMBLY

SERVICE KITS

KIT NUMBER DESCRIPTION

075768	WHEEL KIT (Special. Used to change rear tandem wheel from splined type to tapered keywayed type on grader w/Electric Brakes.	
	32	054900 SHIM, brake armature
	1	066986 KEY, tandem wheel
	1	066990 SPROCKET AND SHAFT
	1	075666 WHEEL, tandem
	1	075767 SEAL, oil, wheel shaft
	1	911446 PIN, cotter, 3/8" x 2-3/4"
076097	WHEEL KIT (Special, Used to change front tandem wheel from splined type to tapered and keywayed type on grader w/Elec. Brakes).	
	32	054900 SHIM, brake armature
	1	066986 KEY, tandem wheel
	1	066988 SPROCKET AND SHAFT
	1	075666 WHEEL, tandem
	1	075767 SEAL, oil, wheel shaft
	1	911446 PIN, cotter, 3/8" x 2-3/4"
