

# GALION 3-WHEEL & TANDEM ROLLERS featuring **ROLL-O-MATIC®**

TORQUE CONVERTER DRIVE

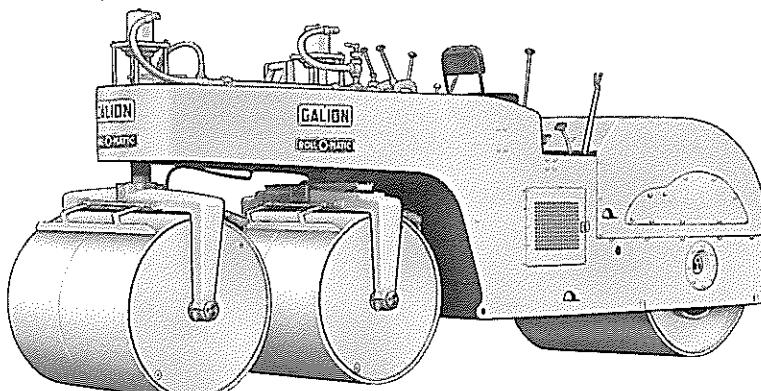

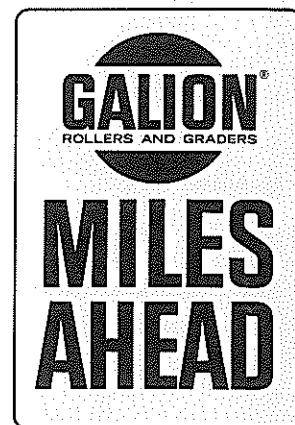

You'll roll more surface every hour because Galion Roll-O-Matic Drive lets you operate faster, smoother and you'll produce more and better finished work. This Galion feature is a highly efficient combination of torque converter, tail-shaft governor and two-speed transmission. It's **standard** on Galion rollers, so every Galion owner benefits by . . .

... **AUTOMATIC MULTIPLICATION OF TORQUE.** It absorbs the build-up of roller inertia and offers smooth forward and reverse action.

... **AUTOMATIC APPLICATION OF POWER.** It provides an infinite number of drive ratios for speeds in either direction, up grade and down.

... **AUTOMATIC REGULATION OF ROLLING SPEED.** It allows the roller engine to speed up or slow down without stalling or overloading.

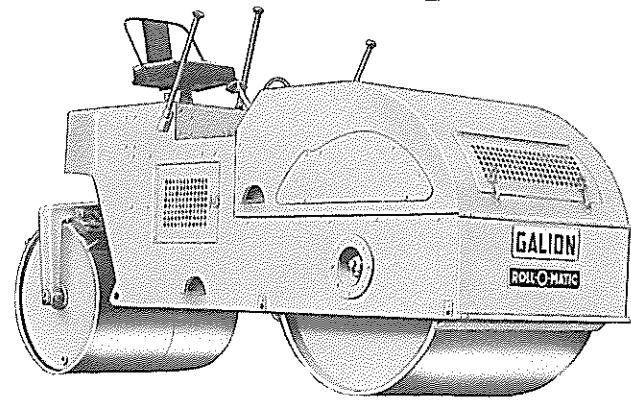

Galion Roll-O-Matic Drive means important maintenance savings as well. It cushions shock loads, prevents costly wear, cuts fuel costs and adds years to the life of the entire power train.

**GALION ROLL-O-MATIC 3-AXLE TANDEM ROLLER**

13-20 Ton Variable Weight

New Hydra-Equalized model offers important advantages.

**GALION ROLL-O-MATIC TANDEM ROLLER**

3-5 Ton Variable Weight

Towing Transport attachment available

**GALION**

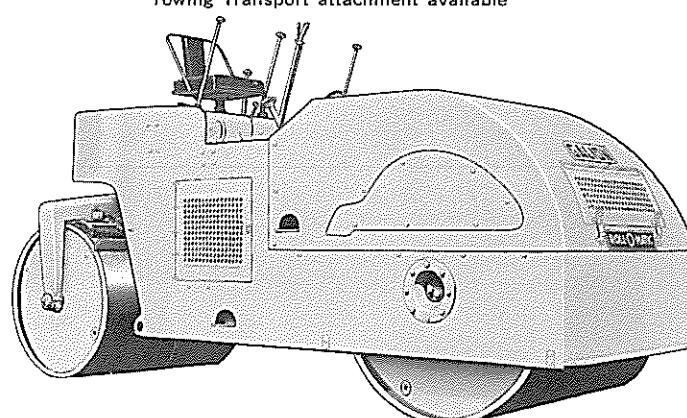

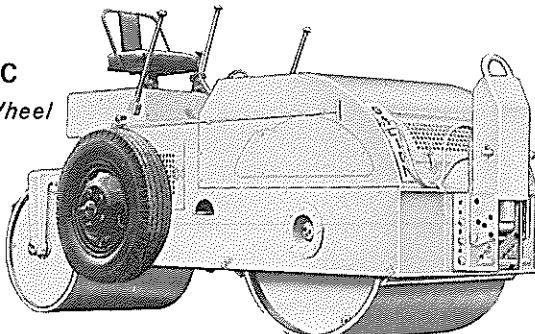

**ROLL-O-MATIC**

*Retractable Wheel*

**TANDEM**

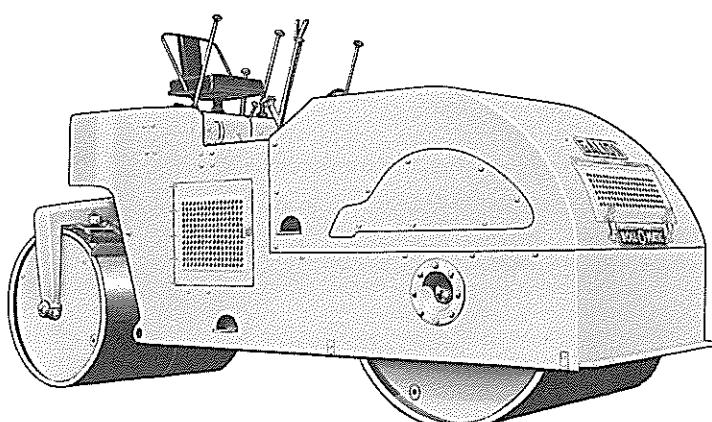

**ROLLER**

4-6 ton  
variable  
weight

**GALION ROLL-O-MATIC TANDEM ROLLERS**

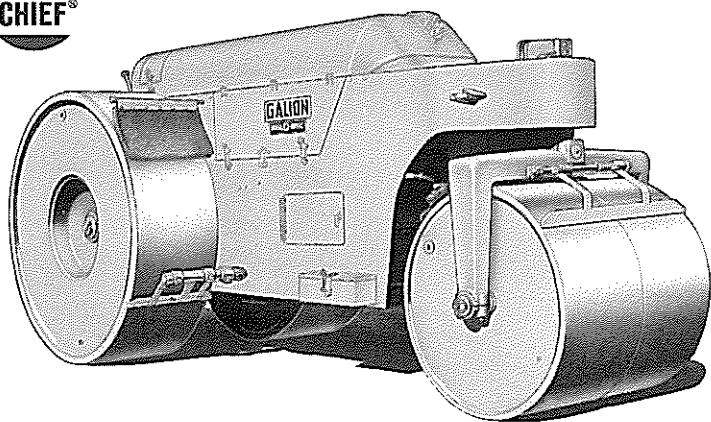

5-8 ton, 8-10½ Ton Variable Weight

**GALION ROLL-O-MATIC TANDEM ROLLERS**

8-12 Ton, 10-14 Ton Variable Weight

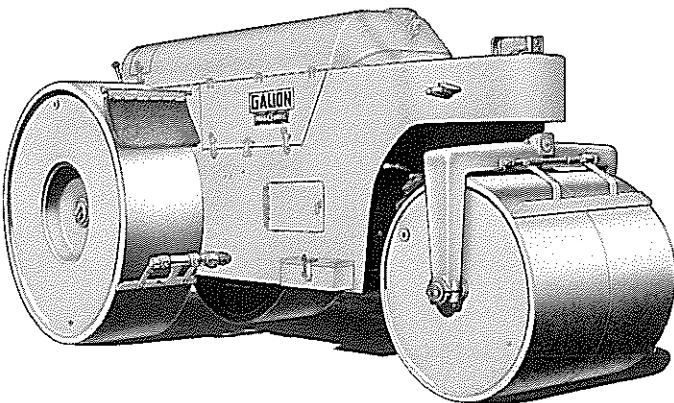

CHIEF®

### GALION ROLL-O-MATIC 3-WHEEL ROLLERS

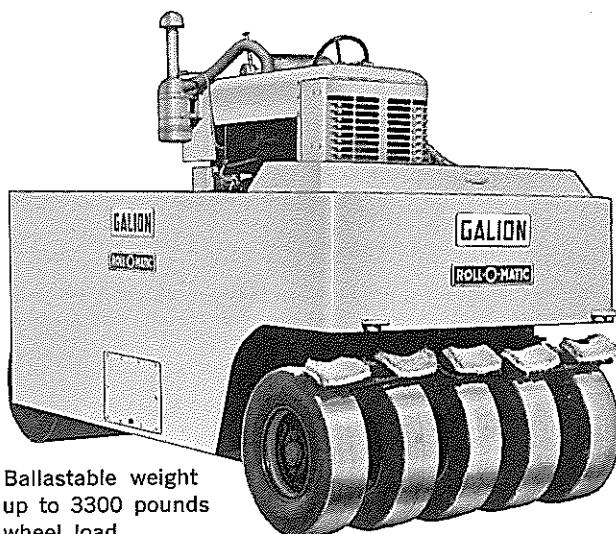

10-12 Ton, 12-14 Ton Variable Weight

WARRIOR®

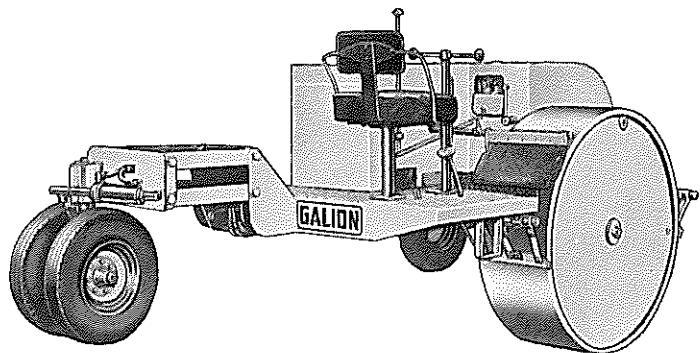

### GALION ROLL-O-MATIC 3-WHEEL ROLLER

6-8 Ton, 8-10 Ton Variable Weight

Ballastable weight  
up to 3300 pounds  
wheel load

### GALION ROLL-O-MATIC 9-WHEEL SELF-PROPELLED PNEUMATIC TIRE ROLLER

### GALION TRENCH ROLLER

Specially designed for effective road widening, with automatic hydraulic control to maintain horizontal level from 6" above to 25" below road surface. Compression range of 310 to 370 pounds.

## ATTACHMENTS

**CANOPY CAB.** Sturdy all-steel cab and curtains available on Galion 3-Wheel Rollers.

**ELECTRIC LIGHTS.** Available as extra equipment on all Galion Roll-O-Matic Rollers.

**ADJUSTABLE SEAT.** Operator's seat-adjustable height and facing front or back. Easily removable.

**WATER PUMP.** Power driven pump fills sprinkler tank and rolls on 3-wheel and tandem rollers.

**SPRINKLER SYSTEM.** Standard equipment on all models except 3-wheel and pneumatic tire rollers. Cowl or Cab type (or both), can be supplied on all 3-wheel rollers. Jets, mats and scrapers available on pneumatic tire model.

**SCARIFIER ATTACHMENT.** Powerful hydraulic scarifier available for Galion 3-wheel rollers. Reversible teeth adjust for varying depths of cut.

**VIBRATORY COMPACTOR.** Available for 3-wheel rollers. Deliver 4200 3-ton deep penetrating blows per minute.
