In addition to part numbers, the Parts Catalogue also includes a vast amount of essential information which you, the operator, should be acquainted with. With the "Catalogue Guide", we want to show clearly how the catalogues are arranged and what sort of information is presented therein. Group 1 Preface and Instructions Here you can find the following information: - Title page and publication number - Revisions which have been introduced, and all established issues - Group index - Product signs - Preface - List of items of equipment adapted to market requirements that have been introduced	 "NS" means that the part is not kept in stock. "SS" means that the part has been replaced. Refer to Group 10 Replaced parts for further information. 11. KIT. Parts that are marked with a "K" are included in a kit. The number of the kit is often indicated after other part numbers. 12. Description. The indentations indicate if one or more parts are included in the assembled unit described above. The parts are included when a complete unit is ordered. 13. Notes. Other information relating to a particular part is given here. Footnote number (963 for example) is given at the bottom of the page. Replaced parts (955884, for example). Product or manufacturing number. Abbreviations and technical information.
- Catalogue Guide - Table of abbreviations	- Reference to page and group. Group 10 Replaced parts / Number index
